

Bayou Pass Village Residents,

Hurricane Idalia is expected to be a category 3 when it hits Florida. At this time Ruskin is within the cone. Now is the time to start working on your hurricane preparations. Please secure all items that may become projectiles such as chairs, tables, flower pots and lawn decor/ornaments. All branch piles at the curbs need to be removed and secured.

If the power goes out in one or more phases but stays on at one of the clubhouses then we will open that clubhouse for residents to charge their phones, use the internet and pick up some ice if needed.

The county is giving away free sandbags Aug 28th from 9am to 7pm at Simmons Park in Ruskin. The lines are very long but you can also purchase sandbags from Home Depot or Lowes.

More prepping info as well as storm tracking available through the National Weather Service Department <https://www.weather.gov/safety/hurricane-plan>

Stay safe neighbors!

Sincerely,
Bayou Pass Village Board of Directors
